GREATER PART OF ADVANCE SUNDAY WAS OVER FROZEN ROADS WHICH SOLDIERS WELCOMED AS RELIEF FROM THE MUD. INHABITANTS WERE AT FIRST FEARFUL OF AMERICANS BECAUSE OF TALES TOLD BY GERMANS, BUT LATER WHEN ASSURED OF FRIENDSHIP GAVE TROOPS AN EARN-EST WELCOME AT TIMES ALMOST HYSTERICAL.

ANOTHER STEP TOWARD HEART OF GERMANY

Hungarian Government Orders Mobilization of Troops on Pretext of Preserving Order. Monster Guns Used by Huns in Verdun Sector Turned Over to Americans.

With the American Army in Lorraine, November 18.—(Associated Press)—Early this morning the American advance toward the Rhine was resumed and another big step on the road toward the heart of Germany will be taken. Yesterday's advance went without a hitch.

The roads over which the Americans marched were frozen during the greater part of the day. This made the walking bad but not nearly so difficult as it was in the recent past when mud and mire had to be negotiated. The troops have moved out of a shell-torn area where the roads have been hastily and temporarily repaired. It is a relief to the men because behind the German lines the roads are in excellent condition.

The people generally were quite timid when the American forces made their appearance. They remained in their houses until assured that the Americans were not another form of the enemy. The Germans had told them that this would be the case. Once assured that the Americans were friends the welcome given by the village was sometimes hysterical in its earnestness.

HUNGARY MOBILIZING FORCES

BASEL, SWITZERLAND, November 17.—(Associated Press)—The Hungarian government has ordered the mobilization of troops on a pretext that it is necessary for the maintenance of order, according to a Prague dispatch from the Czecho-Slovak press bureau, which quotes advices from Skalitz. Four classes have been called upon and among troops mobilized are Slovaks.

AMERICANS TAKE MONSTROUS GUNS

With the American Army Northeast of Verdun, November 17.—(Associated Press)—Two 16-inch cannon which were turned over to the Americans at Spincourt on Saturday were guns used by the Germans to shell the Verdun region. Forty-two guns of various calibres were turned over. The 16-inch guns were taken apart by the Germans into three sections, each section being drawn by a tractor.

The entrance of the Americans into Spincourt on Saturday was one of the most spectacular features of the American advance. Although the details of the American plan had been communicated by wireless to the Germans the carrying out of the schedule was delayed. The Americans were expected at Spincourt at ten o'clock but did not arrive until two in the afternoon because of roads which had been shattered by shell fire.

THE ADVANCE IN BELGIUM

WASHINGTON, NOVEMBER 18.—(Associated Press)—Reporting today on the march of the Third American army into Belgian territory, evacuated by the Germans, General Pershing announced that by nightfall yesterday the advance element had reached the line of Ecouvieu-Sorbecy-Mars-La-Tour, near the German border.

STEADILY FORWARD TO GERMANY

With the American Forces of Occupation, November 18.—(Associated Press)—One part of the American army of occupation moved forward into Belgium today, toward the remainder of the line swung steadily forward toward the German frontier.

Throughout the night the army rested on its line of approximately 50 miles in such a tactical position as to be able to meet any eventuality. Flanking forces were ready for immediate action, the supports were in their proper intervals, the artillery was moved into position and even machine gun emplacements were made. The instructions are that similar care and preparedness must be exercised throughout the march.

HARNESSMAKER NOW GERMAN CHANCELLOR

FREDERICK EBERT

Frederick Ebert, has been proclaimed Chancellor of the regency in Germany after the abdication of the Kaiser. Ebert is a "moderate" Socialist, said to be a hardheaded thinker, and professes no form of religious belief. He is a harnessmaker by trade. His first official act was to issue a proclamation asking the aid of the German people to stave off anarchy.

TROOPS END LYNCHERS' MAD RIOTS

By Associated Press Dispatch

Winston-Salem, N. C., November 18.—Order was restored here today after a night of rioting in which four persons were killed and a score injured when a mob attempted to lynch Russell High, a negro held in the city jail on charges of shooting a farmer, the county sheriff and attacking the farmer's wife.

The negro, who was not positively identified, is believed to have been removed elsewhere for safe keeping. Arrival of 175 soldiers from Camp Greene early today had a pronounced effect on the mob which dispersed after word had been passed around that the prisoner had been taken under heavy guard to another city.

The military took charge of the situation at once. When the troops reached here the police assisted by home guards arrested a number of whites and negroes for carrying concealed weapons. The jail at daylight was filled with persons who were disarmed and locked up while the mob spirit was at its height.

The list of dead included Rachel Levi, a young girl, shot while leaning out of a window at her home during the firing.

SENATE TAKES FINAL ACTION

By Associated Press Dispatch

Washington, November 18.—Final legislative action was taken today by the Senate on the national war-time prohibition bill effective July 1st next and continuing during demobilization. The measure will go Thursday to President Wilson for his approval, confidently expected by prohibition advocates.

FINANCIAL ABILITY OF GERMANY TO BE STRAINED

Bill of Damage Is Mounting So Rapidly That Wealth of Empire May Be Unequal to Meet Demands

By Associated Press Dispatch

Washington, November 18.—Study of Germany's financial situation has been undertaken by government agencies here with a view to throwing light on the ability of the German nation to pay big sums as reparation for devastation of invaded countries.

Unofficial reports indicate Germany's national debt, represented mainly by war bonds held within the empire, is now nearly \$35,000,000,000 or more than two-fifths of the estimated national wealth of \$80,000,000,000.

Although there has been no official announcement or intimation of the aggregate amount which the allies will expect Germany to pay, it is certain to run into billions of dollars and necessarily the terms of payment must accord with Germany's ability to pay.

This ability will be measured by the nation's power to revive her peace-time industries and trade and to tax this for state purposes.

Financial observers here say that some claims for restoration and restitution set forth by interests in a few allied nations are extravagant because they are beyond Germany's ability to pay even though this is estimated at the highest.

STARVATION IS DELIBERATE PLAN

(By Associated Press Cable)

London, November 18.—(3:25 p. m.)—Information at the disposal of the British government, Foreign Secretary Balfour declared in the House of Commons today, is to the effect that the deliberate policy of the Bolshevik government in Russia is one of extermination by starvation, murder and the wholesale execution of all persons who do not support their regime.

REPORT REPUBLIC

(By Associated Press Cable)

Athens, Greece, November 16.—Reports of a change of the regime in Bulgaria and of the proclamation of a republic there have been received here but official confirmation is lacking. The general opinion here is that the reported founding of a republic in Bulgaria is a new move on the part of Bulgaria to escape certain responsibilities in connection with the coming of peace.

William Hohenzollern, the former German Emperor, his immediate family and practically the entire German General Staff, have arrived in Holland.

EXPLOSION KILLS TWO AT SHERMAN

Ordnance Sergeant Killed Instantly and Quartermaster Sergeant Injured Dies Two Hours After Explosion

By Associated Press Dispatch

Camp Sherman, November 18.—Tony Demetri, of Bedford, Ohio, an ordnance sergeant, was blown to pieces and instantly killed and Quartermaster Sergeant Thomas W. Gair of Cleveland, was so severely wounded that he died an hour later when a giant fire cracker which they had made out of a piece of pipe and a hand grenade exploded prematurely today.

The men had filled one end of the pipe with clay and put a fuse to the other end. They attempted to light the fuse with a burning newspaper, saw that it would explode prematurely and attempted to run out of danger. Demetri was badly mangled.

TWENTY-FIVE STATES PASSED ORIGINAL GOAL

United War Work Campaign Turns Into Home Stretch—Many States Oversubscribed

By Associated Press Dispatch

New York, November 18.—The United War Work Campaign turned into the home stretch today with 25 states past their original goals and working hard to obtain a 50 percent oversubscription while the others were reported to be redoubling their efforts.

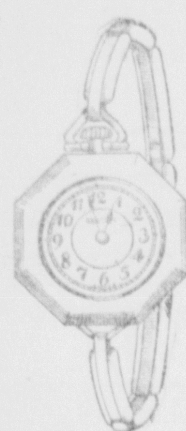

The South was leading the country, eleven states in that section having attained their minimum quota in company with four in New England, the Middle West and Far West and two in the East. All but two of the southern states are oversubscribed.

WARNING ISSUED ON BAN LIFTING

By Associated Press Dispatch

Columbus, O., November 18.—Warnings against premature relaxation of influenza closing orders has been issued by the State Health Department as a result of recurrence of the disease in Bridgeport, Martins Ferry and New Lexington, where restrictions on public gatherings were removed as soon as a decrease in new cases appeared to warrant it.

Railroads have notified the tax commission and Attorney General McGhee that they don't expect to pay excise taxes on gross earnings this year.

Cox to See McAdoo.

Many will be pleased to read how Lewis Newman, 506 Northrand St., Charleston, W. Va., was restored to health. He writes: "I was down sick and nothing would do me any good. I was full of cold. DEMAND PUNISHMENT FOR THOSE GUILTY

SIR THOMAS WHITE

Sir Thomas White, Acting Prime Minister of Canada, in a statement issued at Montreal, said: "If those who have conspired against the peace of the world, who have brought unspeakable woes and calamities upon mankind, and under whose direction brutalities of inconceivable barbarity have been perpetrated in subversion of the laws of nations and of humanity, are not brought to punishment for their monstrous crimes, it will be the greatest failure of retributive justice in the annals of history."

CONSERVE FOOD TO COMPLETE VICTORY

"Save food to save the world from anarchy and starvation."

This is the new message of the Food Administration to the American people.

To bring home to every American citizen the importance of food in the final battle against anarchy—the autocracy of hunger, the first week of December has been designated as "World Relief Week" throughout the country.

Ohio's part in "World Relief Week" will be planned at a state-wide conference of county food workers to be held in Columbus Friday, November 22d.

Mr. G. Harold Powell, who in the absence of Mr. Hoover is in charge of the United States Food Administration, will present Mr. Hoover's message to the Ohio conference. Governor Cox and Food Administrator Croxton for Ohio will also address the conference.

Food Administrator Croxton today urged Food Workers to attend this conference without fail. "It is the most important conference we have had," he said. "With the war won our hardest task so far as food is concerned is ahead," said Croxton.

UNUSUAL ACTION IN PROBATE COURT

An action brought in the Probate Court by William Osterley, of the White pike, Wayne township, to compel the return of his son, Kenneth, aged 17 years, who had been making his home with William Reid, claiming that his home treatment was unjust, came up for hearing Saturday morning and the action had not proceeded far until an uncle of the lad agreed to give him a home, providing the arrangement was satisfactory to the lad's aunt, and the hearing was adjourned one week in order that this phase of the arrangement could be determined.

The lad expects to graduate this winter if allowed to continue in school, as planned by his uncle.

ATTENDANCE GOOD IN CITY SCHOOLS

The school attendance in this city during the past week and at the present time is unusually good considering the severe epidemic which came to an end some ten days ago after the schools had been closed five or six weeks.

No new cases of the disease have appeared in the schools, and the teachers have been instructed to watch for any new cases that might develop, and report same promptly, as well as see that the pupil is dismissed immediately until he or she recovers. No further difficulty is expected.

SAILORS ESCAPE FROM CUSTODIAN

The two sailors who recently passed through this city with a stolen automobile and later were arrested in West Virginia, escaped from the officer who was escorting them back to the Great Lakes Naval Training Station, by crawling from a car window.

As a result of the men escaping from the Circleville officer, the officer, instead of receiving his reward of \$100 is out his railroad fare to and from Chicago, and fares of the two sailors.

The report of the Fayette County War Work Council on the sale of war savings stamps, has not yet been announced, and the result probably will not be definitely known for another 24 hours. THREE SCHOOLS REMAIN CLOSED

Of the large number of rural and village schools in Fayette county, three of the remain closed at the present time, and these are; Waterloo and two located in Perry township, the influenza having failed to subside in the above communities.

At Waterloo when the schools were closed several weeks ago there was not a single case of the disease in the village, and in fact none appeared until some three weeks later. Since that time in the population of 115 in the village the number who have the disease or have had it has passed the 90 mark, and it may be a couple of weeks before the school is reopened. It is believed that Waterloo holds the record of any community in Fayette county in the large percentage of persons who have contracted the malady.

IMPORTANT CHANGE AT CHERRY HOTEL IN EFFECT TODAY

An important change took place Monday at the Cherry Hotel, when Mr. John Culhan took over the Cafeteria, leaving "mine host" C. H. Griffiths to give his entire attention to the big hotel, operating for some time past on the European plan.

Mr. Culhan was associated with Mr. Griffiths in the management of the Cafeteria for several months when it was first opened and brings to its operation the advantage of former acquaintance with its requirements. In every way Mr. Culhan is particularly well equipped to assume the management of this popular Cafeteria. His years of experience, culminating in his recent successful management of the Maple Grove Springs Hotel, his genial and likable personality and reputation for courteous treatment of guests fit him well to take over a restaurant which is known for its fine cuisine and up to date equipment all over the state.

When Mr. Griffiths converted the Cherry Hotel from the American to the European plan in advance of changes since made by many large hotels, it proved a most popular change. The travelling public welcomed the Cafeteria with its quick service and the excellence and extent of its cuisine were on a par with the splendid meals served before the change. The reputation of the Cafeteria was spread broadcast by its patrons and the constantly increasing popularity has made the double management of hotel and Cafeteria a heavy responsibility.

Mr. Culhan has leased the Cafeteria and will give to it his entire attention, while Mr. Griffiths devotes himself wholly to the hotel. This will insure to patrons the best possible service and keep up the high standard of the Cherry Hotel which Mr. Griffiths has so well established through years of competent and up to date management.

Germany's Plea For Aid

There is in the multitude of the requests for aid, made by Germany to the United States for haste in furnishing that aid and the promptness with which the deluge of requests and pleas for mercy and help began after the signing of the armistice to warrant, perhaps, our suspicion of and certainly our contempt for, the German people.

Within a few hours after hostilities ceased and while, as Secretary of State Lansing points out, a state of war exists, the Germans were extending their hands as suppliants and beggars.

That attitude doesn't go down very well with the American people.

Germany assumes, in her pleas, that the United States and the allied nations should be eager to help her out of the woe which she voluntarily brought upon herself. Losing sight of the suffering which she has inflicted on the rest of the world Germany now seeks by the very insistence of her loud clamor to make every other work of the allied nations and the United States secondary to assisting her.

Germany made her own bed and she must occupy it. Any other nation would do it bravely and uncomplainingly.

We might just as well now, at the very outset, get finally fixed in our minds, and impress upon Germany that fact too, that the nations of the world are not going to resume friendly relations with Germany all at once. It will require time—a long period of good behavior and bravery, unselfish national existence—for Germany to establish herself in public esteem. We can't forget the past in a few hours, a few days or even a few years. Rehabilitation in public esteem is a slow process and will require more than loud and insistent pleas for aid and assertions of suffering.

The world doesn't want to see Germany starve, and is not going to, but at the same time Germany is not going to be taken into the full brotherhood of nations until she repents her sins, pays the penalty and reforms in fact.

Germany has been beaten, her military power has been crushed, but there is something about the whine now coming across the sea that makes us fear that the old selfish disposition has not been changed.

Germany is willing to commence all over again just as she was before she flew at the throat of the world. Forget all her past misdeeds and commence to accept—yes to beg for—the generosity of those she would have destroyed.

But the world is not going to do that. Germany has only received a part of her lesson. For years Germany will be made to feel the effects of the wrong she committed.

Germany must be punished in peace as she has been in war—not savagely, nor brutally—but effectively. There are evidences that Germany is not yet contrite.

Now Is The Time

Progressive Washington business men were not very fortunate in securing for the city a portion of the war work activities. There was a time when that operated to our disadvantage, at least most of us thought that it did.

We regretted that so many workers of Washington were lured away from Washington by the opportunity to secure steady work at the high price war-time wages and removed, with their families to other cities. At the time that exodus was occurring there were many disappointed folks hereabouts.

Now, with the coming of peace and the prospect of a speedy return to a normal industrial and commercial basis it is perhaps just as well for the community that some of the temporary war work industries were not secured for Washington.

We are now entering, however, upon a more critical period than was the pre-war period. At this time the affairs of the nation are settling on to a permanent basis. The great centers of industry created by the war necessities are breaking up. There are certain to be hundreds of thousands of workers who must now turn from the work of war to the occupations of peace and it is now that every effort should be made by Washington men to secure labor-employing enterprises which will absorb permanently a proportion of the labor which is to be released from war work.

The golden opportunity to secure permanent industries is here now and we must be up and doing if we obtain our share of industrial activity in the readjustment period.

POEM FOR TODAY

NOVEMBER ELEVENTH

The agony is done, the darkness over
Evil that burned and ravaged dies at
last;
The beast with bloody mouth has run
to cover;
The hosts of light are marching far
and fast!

Brave men of all the little lands are
singing
For hopes as dear as their heroic
dead;
The bells of all the little lands are
ringing—
"Freedom is won! Be glad! Be com-
forted!"

"Freedom is won!" Humbly the
words are spoken—
(They can be humble, for their deeds
were proud!)
"The power that would devour the
world is broken—
The beast that lusted after us is
cowed!"

And in the mighty lands is mighty
laughter
Mingled with tears, and many a
thankful word
Which shall resound for generations
after
These hearts have gone to rest that
now are stirred.

"Freedom is won!" and all mankind
rejoices!
Women and men shall build them
homes again.
Beauty shall speak with her unnum-
bered voices,
Wisdom shall answer from the
mouths of men;

The hungry shall be fed, the grieving
cherished,
The kind be honored, and the poor
made strong;
The beast that knew no ruth—the
beast has perished!
We are set free for work and love
and song!

The beast with bloody mouth has
run to cover—
The merciless seek mercy at the
last.
The people win! The day of Kings is
over!
The hosts of light are marching far
and fast!

WELL, HE WANTED IT, DIDN'T HE?

AMERICA HAS MANY CAUSES TO BE GRATEFUL FOR THIS THANKSGIVING, PRESIDENT'S PROCLAMATION SHOWS

WASHINGTON, Nov. 17.—President Wilson, in a proclamation today, designated Thursday, November 28 as Thanksgiving Day, and said this year the American people have special and moving cause to be grateful and rejoice. Complete victory, he said, has brought not only peace, but the confident promise of a new day as well, in which "justice shall replace force and jealous intrigue among the nations."

The proclamation follows:

THANKSGIVING, 1918.

By the President of the United States of America: A Proclamation.

It has long been our custom to turn in the autumn of the year in praise and thanksgiving to Almighty God for his many blessings and mercies to us as a nation. This year we have special and moving cause to be grateful and to rejoice. God in his good pleasure has given us peace. It has not come as a mere cessation of arms, a mere relief from the strain and tragedy of war. It has come as a great triumph of right. Complete victory has brought us, not peace alone, but the confident promise of a new day as well, in which justice shall replace force and jealous intrigue among the nations. Our gallant armies have participated in a triumph which is not marred or stained by any purpose of selfish aggression. In a righteous cause they have won immortal glory and have nobly served their nation in serving mankind. God has indeed been gracious. We have cause for such rejoicing as revives and strengthens in us all the best traditions of our national history. A new day shines about us, in which our hearts take new courage and look forward with new hope to new and greater duties.

While we render thanks for these things, let us not forget to seek the divine guidance in the performance of those duties, and divine mercy and forgiveness for all errors of act or purpose, and pray that in all that we do we shall strengthen the ties of friendship and mutual respect upon which we must assist to build the new structure of peace and good will among the nations.

Wherefore, I Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the twenty-eighth day of November next, as a day of thanksgiving and prayer and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the ruler of nations.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this sixteenth day of November in the year of our Lord one thousand nine hundred and eighteen and of the independence of the United States of America the one hundred and forty-third.

(Signed) WOODROW WILSON.
By the President: ROBERT LANSING, Secretary of State.

STATE TO WATCH TAXATION WORK FOR LEGISLATURE

Columbus, O., November 18.—The old uniform rule of taxation in Ohio will become obsolete on December 5 when the constitutional amendment to classify property for purposes of taxation becomes effective. The classification amendment is carried by about 30,000, and more than one-third of the counties gave it a majority.

The amendment received more than 650,000 votes. The large vote was a surprise to students of elections and it is the biggest total vote ever cast on a proposal to amend the constitution of Ohio, excepting only the wet and dry amendment.

The adoption of the amendment will give the coming General Assembly a real job. It will be up to the legislature to classify property and fix rates. It is not expected that the legislature will revolutionize taxation in Ohio but that it will make classifications along lines that have proven successful in other states.

President Frank B. McMillin says the Tax Payers' League is making a survey of the operation of classification in other states and that the information received will be laid before the legislature.

"The experience of other states proves that classification increases the tax revenues from properties that now escape taxation," said Mr. McMillin. "The amendment adopted is simple—it affects only the taxation section of the constitution. It does not in any way impair or affect the initiative (five and referendum) If the legislature should enact unfair classification laws they could be referred to the voters the same as any other enactment."

"We realize that the General Assembly has a big task ahead of it. Classification alone gives the legislature a real job and now that liquor revenues are wiped out and railroad excise taxes are threatened, taxation will be a legislative problem of momentous importance."

BRITISH ON MOVE

(By Associated Press Cable)
London, November 17.—The official announcement of the advance of the allied armies says:
"General Plumer's Second Army and General Rawlinson's Fourth Army today commenced their advance, in accordance with the terms of the armistice, in conjunction with the allied armies."

"At the end of the day's march our advance troops had reached the approximate line of Oerfontaine, Puy, Pleton, La Louviere, Soignies, Engghien and south of Ninove."

MEETING AROUSED KEEN INTEREST
 The meeting held at the Federated Club room last Saturday afternoon, was well attended and much interest was manifested in the subject,

the United War Work Campaign. Mrs. Charlotte Willis, Local Chm., made appropriate opening remarks, and then introduced Miss Marjory Williams, General Secretary of the Y. W. C. A. Springfield, Ohio. In a pleasing manner Miss Williams spoke of the campaign. Its magnitude, its significance, and the importance of conserving the united idea, was forcibly presented. The speaker briefly outlined the distinctive features of the seven co-operating organizations. Of the Y. M. C. A. she said, "It is to the boys, a home, a school, a church and an entertainment bureau. It serves the boys before and after going across on ship board, and even when on furlough." Each of the organizations was given a deserved tribute. Instances given of united efforts in her own city, gave a note of spontaneity to Miss Williams' talk, that was very enjoyable. All denominations are joining efforts in making visiting soldiers welcome to Springfield.

The Y. W. C. A. work was next taken up. The secret of the organization's call to service by the government was its experience in handling girls. These girls have proven their ability at Mexico and Panama. Miss Williams stated that the organization at Springfield is in quite a flutter over the expected visit of Mademoiselle Fuchs, in the very near future. She has come from France to our country, to study Y. W. C. A. methods. The national committee has selected Ohio and West Virginia, as the best states for a tour of inspection.

At the close of this delightful talk, many local women lingered for the pleasure of meeting Miss Williams personally. **W. R. C. SOCIAL**

NATION'S LEAGUE FOR PROHIBITION MAY BE RESULT

By Associated Press Dispatch.
 Columbus, Ohio, November 18.—A "League of Nations to enforce prohibition" may be formed at the world wide prohibition conference which opens here Tuesday for a four-day session.

Prominent anti-saloon league officials are said to have been formulating plans for an international organization to further prohibition since the suggestion was first made at the Indianapolis convention of the society in 1914.

CLAIM RABBITS NOT PLENTIFUL

Hunters who have been scouring field and woods in search of rabbits, since the hunting season opened last Friday, have found that rabbits are not as plentiful as usual, according to statements made by a number of hunters, although a few others declare that they had no great difficulty in bagging their maximum number of ten for the day. The apparent scarcity is said to be due to the severe weather last winter which is believed to have resulted in the destruction of a great many rabbits at that time.

SHALL WE UNVEIL THE TABLET

Never did this county fail to do its duty in the great war. Our Boys are still in Europe on the fighting front, and our citizens are meeting the calls made upon them. But there is one call that has not been met. We are still behind in our answer to the Government's demand for buyers of War Savings Stamps.

We Owe \$100,000

which we must raise in this fair county to unveil in its Court House the tablet that evidences a patriotic duty met in full. Can we afford to have it said all over Ohio that this county has failed? Can we hold up our heads with the rest of our citizens of the Buckeye Commonwealth if we do not supply our Government with the funds to complete the Victory work which the boys have so nobly won in the trenches?

THE TIME IS SHORT

We have but a limited time in which to answer. The money is in your pockets to meet the call. It is only a loan that is asked now. Better investment cannot be made, for you can get your money on ten days notice, and it is secured by all the vast resources of this country.

Therefore, our appeal to you is to do this big thing now—to place at the disposal of the Government freely what it must have to complete and make secure the victory of our armies.

It's a patriotic privilege, and one that will put our county

In the right light before the rest of the State.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "foggy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

PROBATION SYSTEM IS NOW AT WORK

The oath of office having been administered by Judge Allen to Mrs. G. Bruce Franklin and her twenty or more assistants on Saturday at 3 p. m. the Probation System for the Juvenile Court of Fayette County was officially begun.

The Chief Probation Officer may deal with three kinds of cases: Delinquency—when a boy or girl is reported for delinquency the Probation Officer first visits the parents in the home; investigates home conditions and finds out who or what is responsible for the child's delinquency. If it is the parent's direct fault they may be brought into the Juvenile Court for adult delinquency. If the child is at fault he may be placed upon probation until he can measure up to the requirements placed upon him. He must report to the Probation Officer regularly; his conduct and work at school is reported by his teacher and the Probation Officer makes frequent visits to his home. Every help possible must be given to the delinquent to encourage him to mend his ways. If he persists in wrong doing he is turned over to the Probate Judge to be dealt with as he may see fit.

The second kind of case with which the Probate Officer deals is

that of Neglected Children. If the moral influence of a home is not what it should be or if parents are cruel the home may be made to change its atmosphere or the children may be taken away.

The third type is the Contributory Case in which an adult causes or helps to promote a juvenile case.

A Probation Officer's duty is to be on the alert wherever a moral breakdown is imminent in a family and to prevent it if possible. She administers to moral needs as the public health nurse ministers to physical needs.

The Probation System was easily established in Fayette County because of the complete and efficient organization of the Woman's Committee of the Council of National Defense. One of the duties of this organization is to help in every way "existing social agencies." Not only has the Woman's Committee done this but in the case of the Probation System it helped it to exist for by its faithful efforts combined with the far-sightedness and good judgment of our County Commissioners this step was made possible. The Executive Board and the Child Welfare department of the Woman's Committee will assume a great part of the responsibility of this work.

The Child Welfare Chairman in each township and precinct, the Supt. of Schools, the Principals of each school building, the County Supt. of Schools and a representative of the Mothers' Club will constitute an able body of assistants to Mrs. Franklin and it will be the object of these devoted citizens to do all they can for the children of the county to prepare them for useful citizenship.

The room to be given over to the Juvenile work is the Board of Elections room in the basement of the Court House, telephone Automatic 9531. Mrs. Franklin will spend her mornings in making her investigation but every afternoon she can be found in her office ready to receive calls from all those who have business with her or who are interested in the work. It is only by the help, co-operation and backing of the public that Mrs. Franklin will be

DR. SOLF BEGS TERMS EASIER

DR. W. S. SOLF

Dr. W. S. Solf, who was German Foreign Minister under Prince Max's Chancellorship, and who appears to have retained that office, has issued a signed appeal to President Wilson in the name of the German people. "To use his influence with the Allies to mitigate these fearful conditions," meaning the armistice terms Dr. Solf said: "After a blockade of Germany lasting fifty months and still in force, the armistice conditions especially the surrender of the transport and sustenance of the army of occupation, make it an impossibility to provide Germany with food, and would cause starvation of millions of German women, children and men."

able to start this important work in the right way.

The room in which this work is to be done is now a bare and unattractive office. It could be made over into a homelike room that will not awe and repel children. If any good citizen wishes to make a donation to the equipment or furnishing of this room it will be most gratefully received.

MISSING WITNESS IN WYNN MURDER HAS BEEN FOUND

In connection with the murder of Chas. B. Wynn, Piketon, Ohio, editor, who had many relatives here and whose body was found in the Ohio river at Cincinnati some two weeks ago, the Enquirer of Friday carries the following story relative to the discovery of an important witness who may be able to shed some light on the murder:

"Coroner Bauer learned last night of the receipt by a guest at the Burnet House of a letter said to have been written by Claude W. King, wealthy South Sea Islander, whose testimony is sought by police and Coroner Bauer in an effort to solve the mystery surrounding the death of Charles B. Wynn, Piketon, Ohio, editor. Coroner Bauer asserts Wynn was killed before his body was found in the Ohio River.

"In the letter, Coroner Bauer was informed, King states he is at Camp Knox, Ky., suffering from injuries received in an automobile accident. Efforts are to be made to interview King.

"The inquest into the death of Wynn was continued indefinitely after one witness had been heard yesterday.

"Soon after Wynn's body was found an examination disclosed air in his lungs, indicating his death was not due to drowning. As a result of blood clots found on the victim's brain, Coroner Bauer is to hold his death was due to strangulation, induced by person or persons unknown to the authorities.

Mr. King, witnesses say, was seen in the neighborhood of the place where Wynn's body was found after watchmen on coal fleets heard cries for help.

A description of King was given by Miss Jane Wilkinson, a guest at the Burnet House, yesterday. Miss Wilkinson testified she met King when he called to deliver a message for a young woman friend who was rooming with her at the time.

She said he was five feet four or five inches in height, 40 or 45 years old, had blue eyes, prominent nose, smooth faced, bald head and his teeth showed a great deal of dental work. He wore a cap, lace tan shoes and a dark blue suit when he called on Miss Wilkinson, she said. He told her he was a Government employee doing construction work at Columbus, Ohio, and was on his way to West Point, Ky., on business, she asserted.

"Miss Wilkinson said he had told her he was meeting with difficulty in having checks for a large amount of money cashed, but finally he secured the money at the Hotel Gibson. King disappeared October 31, the day Wynn's body was found, leaving his effects in his room.

"Unless the police can locate King

and he is able to give us facts which will clear up the case, it appears another unsolved mystery will be recorded," said the Coroner.

RAPID HEADWAY MADE BY FARMERS

Fayette county farmers, with few exceptions, are further advanced with their work of corn husking than at this date in many years, many of them having already completed their corn husking and hundreds of others will finish this important piece of work this week weather permitting.

The rapid headway is due chiefly to the ideal weather, while a smaller yield than usual the result of dry weather and poor seed, has done much toward bringing the work to a speedy conclusion.

The short corn crop will mean the feeding of less hogs for market than usual, it is believed, although all farmers, believing that the price of meat of all kinds will remain high for two or three years at the very least are preparing to save sufficient corn, or but it of neighbors, to take care of an increased number of hogs and sheep.

It is believed that the amount of corn hauled to market this season will be considerably less than usual because of the great number of hogs fed or remaining to be fed for market.

YANK IN TANK DEALS DEATH TO THE HUNS

Machine Gunner in the French "Whippet" or Two-Man Tanks Tells of Havoc Wrought Among Frightened Huns

With the American Forces in France, November 2.—American fighters in the French two-man tanks ran into some hot work in front of Romagne during American army's advance along the west bank of the Meuse early in October and Sergeant James Avertt, of Birmingham, Alabama, with his "buddy" did their share in giving the Hun his due. Avertt's "buddy" was killed in the thick of the fight by a bullet that entered a peep hole in the side of the tank and struck him fair in the face. It was during the American "push" in the Argonne sector. Avertt's tank went along with a lot of other "brother" tanks in line with the American infantrymen crowding them in the rear. Avertt was the machine gunner of his tank while his "buddy" ran the engine and steered the tank.

"I was so near a number of German encountered in a shallow trench that I could see the terror on their faces when my gun began to let fly bullets almost in their very faces," Sergeant Avertt said. "These were the first Boches I ran into on this drive and I certainly let them have it as fast as my old machine could fire, and that was some fast, and I just kept going ahead and pounding away until every last one of them was stretched out on the ground."

"Passing beyond this hastily dug trench, I in the meantime watching my 'brothers' on my right and left and at the same time keeping tab on the doughboys coming up, I got sight of a little batch of Germans behind a hump in the hill along the roadway, or what had been a roadway before our heavy artillery opened up that morning. These were machine gunners, I soon learned, and bullets began to splash off the tank's sides particularly those which struck a glancing blow."

"I ordered my tank 'buddy' at the wheel to keep after those gunners; it cost us all four wheels. He did, and we went up after them sort of sideways, and I got around on to the side of that hump, and my 'brother' on the other side was doing the same and we wiped that bunch out in a jiffy—I believe it was by enfilading fire, as the officers call it."

Sergeant Avertt explained that the tank men, all of whom were Americans using two men tanks invented by the French, always watched each other closely, or endeavored to, the idea being to keep a hundred yards or so apart for their mutual protection, and it being important also that they not get too far ahead of the infantry.

"Just beyond the hump was a clump of woods, and we began to pour bullets into that," Sergeant Avertt continued, "and for a time there was some smoke arising above the treetops so we knew there were Boches in there. About four of us opened up in full force and showered that woods with lead."

"Just about that time there was a volley of machine gun bullets, and some anti-tank gun stuff too, from a hill a bit to my left, suddenly my tank just began to tremble or something, and then stopped, and shuddered all over. I looked down and my 'buddy' was limp in his seat. One of damned bullets had come in through my 'buddy's' peep hole and hit him square in the face."

"My 'buddy' was dead. His final clutch on the throttle shut off the gas and the old tank stopped, and there I was and the other boys went on. That's about all I know about that

ENDS CENSORSHIP

GEORGE CREEL.

George Creel, chairman of the Committee of Public Information, recommended to President Wilson the abandonment of all censorship on news, including withdrawal of the voluntary censorship request under which American newspapers have been operating since the United States entered the war. Mr. Creel said that the domestic activities of the committee will be discontinued the latter part of this month. Work of the foreign division will be continued for a time at least.

fight, or whatever it was, and I'm waiting around now for another tank and another 'buddy' too take me up front again where things are doing every minute. This tank business is great business for the boys who like to shoot."

GOOD WORK OF BRITISH WASPS

(By Associated Press Cable)

London, November 18.—Details can now be given of the part which British submarines played during the war. This service destroyed the following enemy warships.

Two battle ships, 2 armed cruisers, 2 light cruisers, 7 destroyers, 5 gunboats, 20 submarines and 5 armed auxiliary vessels.

Three battle ships and one light cruiser were torpedoed, but reached port badly damaged.

Other enemy craft destroyed were:

One Zeppelin, 14 transports, 6 ammunition and supply ships, 2 store ships, 53 steamships and 197 sailing ships.

In no case was a merchant ship sunk at sight. Care was taken to see that the crews of all vessels got away safely.

SGT. W. B. HYER IS IN HOSPITAL

Dr. A. A. Hyer has received word from his son, Sergeant W. B. Hyer, of M Company, stating that Sergeant Hyer is in a hospital suffering with a wound in the left arm, just below the elbow.

The exact nature of the wound was not announced, but is supposed to have been inflicted by either a machine gun bullet or piece of shrapnel, probably while fighting in the Sedan sector.

It is expected that by reason of the wound Sergeant Hyer will be one of the first soldiers in France who will be sent back home.
